## DETAILED ACTION

### *Election/Restriction*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-16 and 25-28, drawn to a method for producing a plant/cell with reduced susceptibility to gall disease by transforming a plant/cell with specific isolated nucleic acid sequences, and transformed plant/cell/seed produced thereof, classified in class 800, subclass 279, for example.
  - II. Claims 17-24, drawn to a method for producing a plant/cell with reduced susceptibility to gall disease with BR construct, and a transformed plant/cell produced thereof, classified in class 800, subclass 278, for example.

For the invention of Group I, restriction to one of the following genes is required under 35 USC 121.

- (A). SEQ ID No: 10
- (B). SEQ ID No: 11
- (C). SEQ ID No: 12

The inventions are distinct, each from the other because of the following reasons:

2. Inventions (A)-(B) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different

inventions, represent structurally different genes. Therefore, where structural identity is required, such as for hybridization or expression, the different sequences have different effects.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, different inventions are not disclosed as capable of use together and have different modes of operation.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
